SPECIFICATIONS

Type: Pendant

Materials:
- Laser sintered polyamide (SLS) shade.
- Anodized aluminum alloy body and canopy.

Cord length: 84" (210 mm)
- *custom length available upon request.

LED MODULE

Input: 6.4 W
Voltage: 120 V
Dimming: Phase
Lumen output: 500 lm
Color temperature: 2700 K
CRI: 93
Lifespan: +70,000 hrs

WARRANTY

5 years limited warranty

CERTIFICATIONS

DESCRIPTION

Halfway between an underwater creature and a pre-war, rural water tank, this lamp bridges the gap between the immense expressive potential of additive manufacturing and our beloved modern interiors' design languages. From the bottom edge of a clean upper ring, a series of openings allow the shine of an LED module to spill out. As water through a dam's floodgates, the light washes on the outside of the lamp while also pouring through the lamps hollow wedges and flower shaped interior.

DESIGNER

Emiliano Godoy is a Mexican industrial designer who's been working for almost 20 years in applied sustainability projects, using design as a tool for generating positive changes in society and the environment.

His design pieces are part of some of the most revered design museums' permanent collections, such as MoMA and the Cooper Hewitt Smithsonian Design Museum, and has received several international design awards.

Godoy runs the design firm bearing his name, where he designs products for manufacturers in Mexico, Europe and the United States, as well as interiors, architecture, exhibition and urban design projects. He is also part of Tuux, an interiors, architecture and manufacturing studio.

He is a board member of the Abierto Mexicano de Diseño, an open-source design festival in Mexico City, and a partner at the online furniture store hechoyderecho.com.
